this book states that the political systems of china vietnam cuba and other socialist countries are showing distinct maturity and ability to deal effectively with challenges the most recent being the covid 19 pandemic in order to understand how they have developed their structures it is time to return to the roots of the marxist tradition and re-examine the question of socialist governance it was friedrich engels and less so marx who laid out some of the theoretical foundations for socialist governance on the basis of extensive research in 1870s and 1880s engels developed his analysis of the nature of hitherto existing states as a separated public power the role of the dictatorship of the proletariat and its exercise of power the actual meaning of the withering away of the state which would be one of the very last outcomes of socialist construction and the nature of socialist governance itself on this matter he proposed a depoliticised public power that would stand in the midst of society and focus on managing the processes of production for the sake of the true interests of society

combining intellectual history geography and political science this book addresses the relations between geography and the federalist tendencies of key individuals during the nineteenth century italian risorgimento the book investigates the development of transnational federalist attitudes amongst a political network of intellectuals and hones in on several

understudied figures who played important roles in the Italian radical movements for national and social liberation notably this includes political geographers who mobilised geographical metaphors to foster change and reorganise territories the author demonstrates how federalism anarchism and republicanism were all connected and led not only to autonomy in Italy but more locally within its regions and municipalities and more broadly across Europe over the long Risorgimento period contributing to current debates on federalism and anti colonialism this book will appeal to historical geographers political scientists and those researching the history of federalism republicanism and anarchism in Europe
